

Lourdes M. Guerrero DMD, MS

General Dentist

305-490-4595

| Clearwater, FL

| lourdes.guerrero@westernu.edu

Dear Hiring Manager,

Dentistry has always appealed to me because of the relationships it allows me to build with patients. I value the opportunity to earn their trust, help improve the way they feel about their oral health and themselves, and create an environment where they feel genuinely cared for. I also enjoy educating patients, helping them build healthier habits, and developing comprehensive treatment plans that reflect both their clinical needs and where they are in their dental journey.

In my current role, I serve as the sole provider in a high-volume practice, independently managing comprehensive treatment, dental emergencies, and a diverse patient population.

My clinical experience includes restorative dentistry, crown and bridge, removable prosthodontics, surgical extractions, bone grafting, endodontics, periodontal care, pediatric dentistry, nitrous oxide sedation, implants, CAD/CAM and emergency treatment.

I also enjoy working as part of a collaborative team and value a practice culture where both patients and team members feel supported. I would welcome the opportunity to bring my clinical experience, patient-focused approach, and enthusiasm for comprehensive care to your practice.

Thank you for your consideration. I look forward to the opportunity to connect.

Respectfully Yours,

Lourdes Guerrero
